

Edlund Premier Series NSF Dishwasher Safe Portion Scales

Our most popular and affordable line of portion and receiving scales is now dishwasher safe. No need to disassemble the scale, just put it in the dishwasher with your pots and pans. Available with standard or oversized platforms, dashpots for faster readings, and rotating and fixed dial versions, every scale offers quality stainless steel construction that's easy to clean and won't rust. Edlund's Premier line can take the heat when the competition can't.

- Dishwasher safe. No need to disassemble scale
- Stainless steel housing, springs, and mechanism
- Stainless steel platforms are available in two sizes
- Gold dial deluxe models feature air dashpot shock absorbers which reduce pointer bounce for instant readings
- Rustproof
- NSF Certified
- Made in U.S.A.

DR-2 OP

SR-2

SF-2

DR-34 C

OU-32

MSR-1000

Shown with CK-32 calibration kit.

Always clean. Always Accurate. When it comes to convenience, Edlund outweighs them all.

FEATURES:

- Stainless steel springs and mechanism
- All stainless steel housing
- Deluxe models feature air dashpots which reduce pointer bounce for instant reading
- Rotatable and fixed dial models available
- Standard models platform dimensions 6" x 6 $\frac{3}{4}$ " stainless steel
- Oversized platforms measure 7" x 8 $\frac{3}{4}$ " stainless steel
- 32 oz. and 1000 gram models are field re-calibratable (Requires CK-32 or CK-1000 calibration kits)
- Model OU-32 features a 3 quart stainless steel bowl
- Rustproof
- NSF Certified
- Made in U.S.A.

SPECIFICATIONS:

U.S. measure models are dishwasher safe. No need to disassemble scale.

MODEL #	CAPACITY	MODEL #	CAPACITY	MODEL #	CAPACITY
OP models have 7" x 8 $\frac{3}{4}$ " stainless steel platforms		DR-2	32 oz. x $\frac{1}{4}$ oz.	SR-25	25 lbs. x 4 oz.

Edlund #1 and #2 Manual Can Openers

Edlund invented these original can openers 75 years ago, and they have set the standard in foodservice ever since. Now we've improved them to meet the even tougher requirements of today's foodservice operations. With a new smoother action base design, long wearing spool and rust resistant arbor, you just can't copy our quality.

- ① Delrin plastic spool reduces friction against handle to improve wear
- ② Base design for more rigidity

- ③ Melonite arbor provides greater rust resistance to make gear changing easier

- ④ Replaceable plastic base insert provides smooth glide action and reduces wear on opener shaft

“Old Reliable” just got more dependable.

#1 with long bar and optional cast iron base

FEATURES:

- Rust resistant arbor
- Made in U.S.A.
- New base with plastic insert

#1 and #2 models available with plated or stainless steel bases

Etlund 401 NSF Certified Electric Knife Sharpener

Introducing Etlund's factory precise Model 401 Electric Knife Sharpener. The 401 was designed with the input of engineers from the market leader of professional cutlery. The result: a sharpener that recreates a factory fresh knife and maintains the integrity of the entire edge, tip to handle. The blade is not merely sharpened; it's restored each time as if the knife were new. **Another sharp idea from Etlund, of course!**

- Precision guidance system to help maintain a perfect edge
- ABS knife guide pops out for easier cleaning and ease of maintenance
- All stainless steel housing
- Newly engineered knife guide allows knife heel to be inserted closer to stone than previous models to maximize sharpening area
- Grinding wheel assembly is replaceable
- Sharpens knives from $\frac{3}{16}$ of an inch to cleaver blades. Also sharpens scalloped edge bread knives
- NSF Certified
- Made in USA

From sharper minds, come sharper products.

The NSF Certified Model 401 is so easy to use and clean you'll have factory fresh knives every shift, every day.

Model 401 shown with Easy-Track Guidance System removed for cleaning, or for replacement of grinding wheel.

FEATURES:

- Precision guidance system to help maintain a perfect edge
- ABS knife guide pops out for easier cleaning and ease of maintenance
- Newly engineered knife guide allows knife heel to be inserted closer to stone than previous models to maximize sharpening area
- Pressure sensitive motor shuts down automatically if too much pressure is applied, preventing burn or excess wear
- All stainless steel housing
- The Model 401 was designed with the input of engineers from the market leader of professional cutlery
- Grinding wheel assembly is replaceable
- Sharpens knives from $\frac{3}{16}$ of an inch to cleaver blades. Also sharpens scalloped edge bread knives
- Lighted rocker switch indicates when motor is running
- NSF Certified
- Made in USA

Etlund KR-50 NSF Certified Color-Coded Knife Racks

The most advanced knife rack system in the world just got even better. Etlund proudly introduces the new KR-50 color-coded knife racks to its extensive knife rack line. The KR-50's are ideal for smaller foodservice kitchens, individual work areas or carving stations, and wherever food safety issues are a major concern. Made from heavy duty stainless steel with high impact thermoplastic inserts, the KR-50's are designed to increase sanitation and protect knives and operators from accidents.

Operators can fully integrate their current knife inventory into a complete HACCP program.

Etlund can maximize your HACCP knife program by closely matching colors with colored handled knives.

NSF certified, dishwasher safe and replaceable colored inserts provide the ultimate solution in knife handling and storage.

Sanitary knife storage and handling is not a black and white issue. Edlund offers 5 additional solutions.
